PROFESSIONAL SUMMARY

Highly motivated **Penetration Tester** and BSc Computer Science Graduate with a strong foundation in offensive security and network vulnerability assessments. Certified in **eJPT**, **AWS Cloud**, and IBM Cybersecurity. Passionate about **vulnerability research** and continuously advancing technical skills in **binary exploitation** and **reverse engineering** through hands-on practice on platforms like pwn.college and BugBounty.sa. Adept at identifying security flaws and applying robust mitigation strategies to protect critical systems.

TECHNICAL SKILLS

- Core Competencies:** Vulnerability Research, Reverse Engineering, Binary Exploitation, Penetration Testing, Threat Detection, Network Security Assessments.
- Programming & Architecture:** C, Python, Assembly (x86/x64), Bash Scripting, Linux Administration, AWS Cloud.
- Security Tools & OS:** Ghidra, GDB, Burp Suite, Metasploit, Wireshark, Nmap, Parrot OS, Kali Linux.

CERTIFICATIONS

- eJPT (Junior Penetration Tester)** - eLearn Security (2025)
- AWS Certified Cloud Practitioner** - Amazon (2024)
- Cybersecurity Fundamentals & Project-Based Program** - IBM (2024)
- SAP S/4HANA (TS410) Professional Certificate** - Brandenburg University (2024)
- Deep Learning & Neural Network** - Simplilearn (2024)

PROJECTS & SECURITY RESEARCH

- Binary Exploitation (pwn.college):** Solving complex reverse engineering challenges using GDB & Ghidra to analyze x86/x64 assembly and identify memory corruption.
- Automated Vulnerability Scanner:** Built a Python-based network scanner to automate the discovery of open ports and system misconfigurations.
- Hash Analysis Tool:** Built a Python tool for dictionary attacks to evaluate encryption strength against brute-force vulnerabilities.

PROFESSIONAL EXPERIENCE

Smart Methods Est. | Robotics Engineer Trainee (COOP) | Aug 2025 - Mar 2026

- Engineered a **voice-controlled robotic arm** using Arduino (C/C++), gaining practical expertise in embedded systems and low-level hardware logic relevant to IoT vulnerability research.

EDUCATION

Bachelor of Science in Computer Science | Yanbu Industrial College | Graduated: 2026
